

Amendments to the Drawings

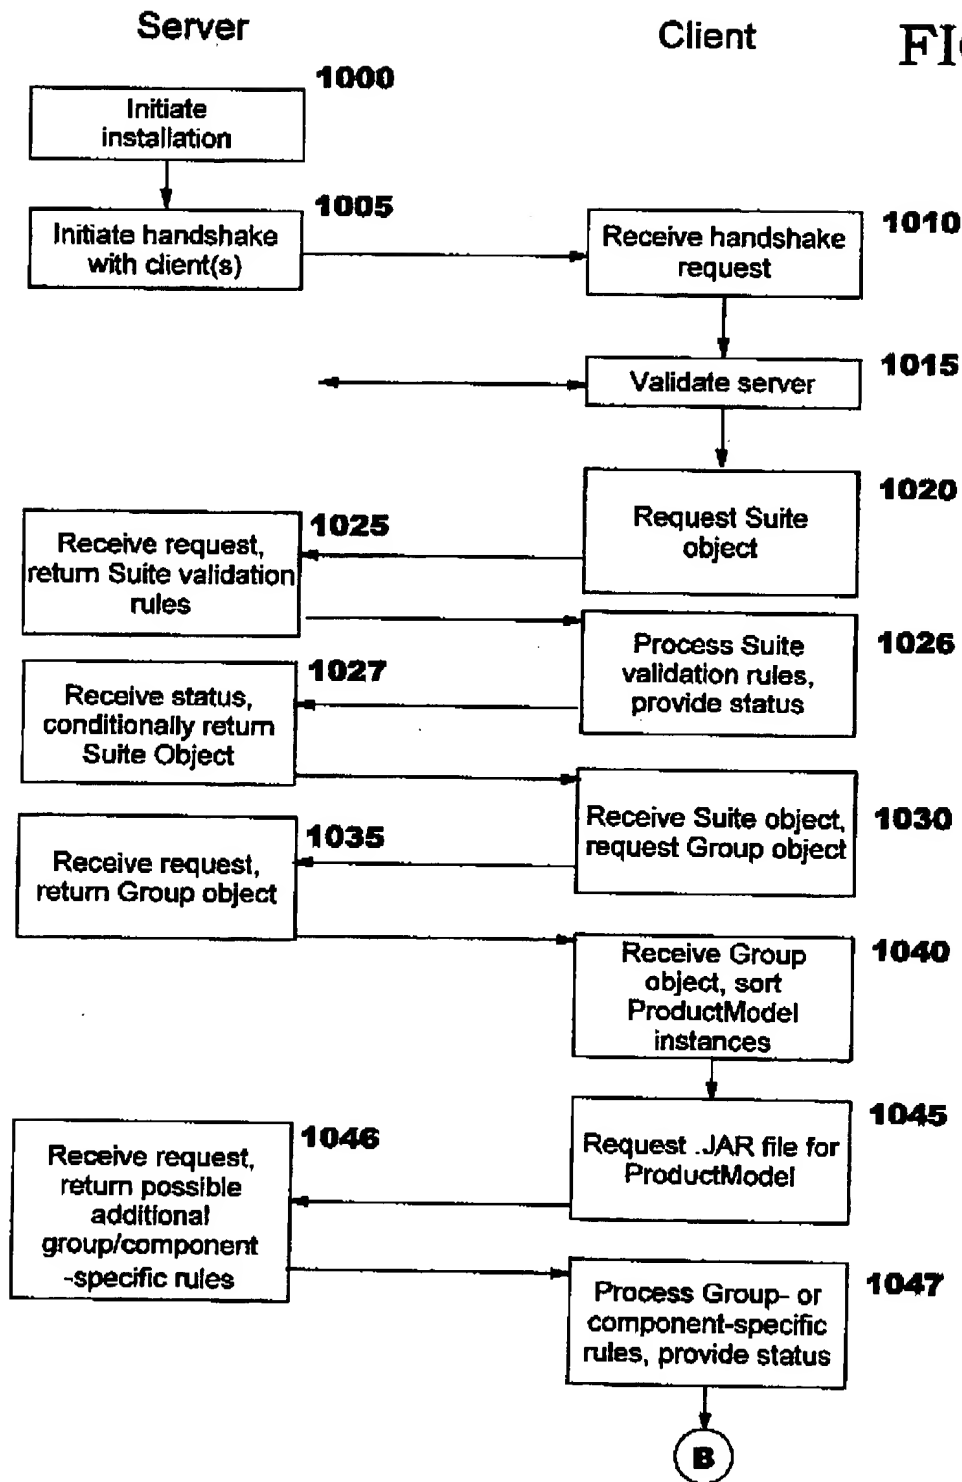

Fig. 7 is amended to provide a missing Block **705**, which is referenced in the specification as originally filed on p. 32, lines 10 - 11. Previously-numbered Blocks **705 - 740** are now renumbered as Blocks **710 - 745**. These new block numbers correspond to the text of the specification as originally filed. In addition, the text of Block **715** is amended to change "Creates" to "Create".

The amendment to **Fig. 10A** replaces "Machine" with "Group" in Blocks **1030, 1035, 1040, 1046, and 1047**. This change corresponds to the change made herein to p. 39, line 11 of the specification, and brings the text and **Fig. 10A** into alignment with the text on p. 33, lines 9 - 12, where it is stated that component objects, also referred to as instances of **ProductModel**, are stored in a **Group** object. (The text on p. 39, line 11 refers to obtaining component objects, and they are stored in a **Group** object, not in a **Machine** object.)

The amendment to **Fig. 10B** replaces reference number **1090** in the "Server" column (i.e., left-hand side) of the figure with reference number **1085**. This correction aligns the figure with its corresponding text on p. 41, line 11, and removes an obvious error (in that reference number **1090** was used for two different blocks of **Fig. 10B**).
